## ABOUT THE CONFERENCE

The twenty-first century global order is witnessing unprecedented geopolitical realignments, technological transformation, climate insecurity and the emergence of new centres of power. India's evolving diplomatic engagement increasingly influences not only international governance but also domestic law, economic policy, technology, security and sustainable development.

The Two Day Multidisciplinary International Conference on **India's Nexum: Emerging Multipolar World Order and Geo Strategic Dimensions** provides an interdisciplinary platform for scholars, diplomats, policymakers, researchers, academicians and students to deliberate upon India's expanding global role and its implications for contemporary governance.
